WORK EXPERIENCE

Software Developer

08/2023 - 06/2024

CE Solutions, Hinton, Canada

- Developed web applications including logistics management platforms using Vue.js, React.js and C#.
- Created mobile applications for these platforms using Flutter.
- Developed a Python Programs for files management and database upload.
- Optimized database queries and REST API calls, boosting performance by about 40% and executed Jest.js unit tests.
- Led critical project enhancements, optimizing code for a 30% performance boost and improving user experience.
- Spearheaded UI/UX design and implemented new functionalities to enhance application responsiveness and efficiency.

JavaScript Developer

12/2022 - 08/2023

Adriano Mobile, Warsaw, Poland

- Developed engaging mobile ads featuring mini-games using JavaScript, TypeScript, and CSS3, resulting in a 60% increase in campaign revenue compared to static ads.
- Led frontend development for a platform overseeing publishers and advertisements, employing TypeScript, React.js, and Next.js.

- Managed tasks for the frontend development team, collaborated closely with the backend team to ensure seamless integration.
- Conducted thorough code reviews and provided feedback to the team to maintain high standards of code quality.
- Introduced TypeScript in advertising projects, speeding up development by 50%.

Magento2 Frontend Developer

02/2021 - 12/2022

Aurora Creation, Bialystok, Poland

- Developed Progressive Web Applications using React.js integrated with the Magento 2 platform for European brands, ensuring high performance on both mobile and desktop.
- Led 35% of the company's projects as Head Frontend Developer: managed tasks for a 3-person team, cooperated with clients and project managers by conducting project meetings.
- Served as the head full-stack developer for the website project at Mayko SEO Agency, spearheading all aspects from inception to completion independently, leveraging JavaScript and PHP.
- Implemented Magento2 training programs and conducted code reviews to ensure clean and efficient code.
- Collaborated with Cross-Functional Teams within an Agile framework, participating in daily stand-ups, sprint planning, and retrospective meetings. Maintained regular communication with design and backend teams, ensuring alignment on project objectives and timelines.
- Performed backend tasks reduced the backend team's workload by 15%, which accelerated project completion timelines.

Frontend Developer

08/2019 - 02/2021

Euro-Net, Warsaw, Poland

- Implemented promotional product landing pages with JavaScript, CSS3, and FreeMarker boosted online sales by approximately 40% and traffic to manufacturers' direct websites.
- Collaborated closely with graphic designers and the marketing department to finalize Landing Page specifications.
- Worked with backend developers on the company's main portals.

Junior Frontend Developer

03/2019 - 08/2019

Praca.pl, Warsaw, Poland

- Developed custom landing pages using JavaScript, PHP and CSS3 integrated with job offers from the main portal.
- Achieved a notable increase of approximately 500 daily users on the praca.pl homepage due to the impact of SEO-optimized landing pages.
